

# Next Steps

## Where do we go from here?

**Vision: What do we want the Sustainable Energy Infrastructure in the Hudson Valley to look like in 5 - 10 years?** (15 minutes)

By **SUSTAINABLE ENERGY** we mean **ENERGY EFFICIENCY** and **RENEWABLE ENERGY** resources. If you are referring to a particular technology, please specify: Energy efficiency (EE), energy conservation (EC), solar photovoltaics (PV), wind power (W), low impact hydroelectric (Hydro), geothermal (Geo), tidal (T), etc.

### **How do we get there?**

Ideas and recommendations for expanding sustainable energy infrastructure.  
(45 minutes -- 15 each)

- 🌐 What do we need to know? What additional information or research is needed?
- 🌐 What other excellent models, specific processes, or financing mechanisms can you recommend? What are you willing to do?
- 🌐 How can this effort best be coordinated?
