## Program Description

Camp Clearwater is not a typical residential camp experience. Our programs are continuous multi-element adventures. We travel along the Hudson River and hike throughout the Hudson Valley. Each day we arrive at a new destination. Our program promotes positive community-building, where each young person has an equal voice and the opportunity to grow.

### Program Elements

#### Sloop Clearwater

Students will experience the river from the decks of our historic sloop, participating in our award-winning onboard education program. Highlights include raising the mainsail, deploying the fishing net, and steering the vessel.

#### Backpacking, Rock Climbing

Students will learn "leave no trace" practices and land navigation, and will climb a true rock face. This will develop principles of environmental stewardship and build self-confidence.

#### Native American Fur Trader Canoe Experience

History and the culture of the Native Americans from the Hudson River Valley will be taught. Participants will explore the Hudson River while on a 34 foot Native American Fur Trader Canoe.

**Kayaking**  
 The group will complete a full day of training, then embark on a multi-day expedition in tandem sea kayaks. Along the way they will explore the life and history of the Hudson River and participate in water ecology activities.
