

Power of Song Apprentice Program

Our mission: In the tradition of Clearwater, with Pete Seeger's musical approach, we will create the next generation of young musicians –whose songs will reflect, inspire and activate audiences.

Process:

- *Identify and learn songs that reflect history.*
- *Interpret and perform selected songs in their way.*
- *Identify and learn cover songs that reflect the present times.*
- *Discuss and identify the issues of the present times and write new songs.*

Audience: Community members ages 15 – 21.

*Commitment: Wednesday nights 6:30 – 8:30
at the Clearwater Office
724 Wolcott Avenue (9D)
Beacon, NY 12508*

Outcomes: The participants will perform their music for their friends and family and the general local Beacon community; they will perform a set on the Main Stage at the Hudson River Revival in June; they will record their original songs; they will grow the Power of Song program through their schools and community affiliations; they will participate in Clearwater sail, Tideline and classroom outreach programs sharing their new songs and their new interpretations of old songs.
