

Gather by the Hudson River
Thursday, July 23rd at 7:30pm
to support

If General Electric follows through on plans to dismantle its upriver PCB cleanup operations this fall, it will leave behind thousands of pounds of heavily contaminated sediments flowing throughout the river! Federal agencies say the leftover toxic sediments pose significant health and economic risks for generations to come. Join our vigil for full recovery of our most treasured natural and economic resource from PCB pollution.

VIGIL SITES:

- **NEWBURGH (Unico Park) – BEACON (Long Dock Park) Waterfront**
