

Music Jam Etiquette

- 🕒 Tune your instrument to “concert tuning” (borrow a tuner if you need to)
- 🕒 There is a facilitator! Round Robin Rules (around inner circle, then outer; you can “pass” and we’ll come back to you in 2 songs or you can specify “next time around”)
- 🕒 **When you are leading:** Keep it simple! Tell us the key, the title, a quick story and even the chords if it’s tricky in spots.
- 🕒 **When you are following:** Be polite. Always. Be patient. Listen before you start to play. Test the waters before you dive in – play softly and get used to it first. When someone is singing or soloing, don’t drown them out. Back off if there are a jillion instruments strumming. Use good manners and judgment when heading into a solo.
- 🕒 **Have the best time!** There is nothing like playing music with folks. It’s magic!
