

OPEN HOUSE: To showcase Nubian Directions' Green Stormwater Project, Garden & Plant Nursery

Creating a Green Jobs Pipeline: Join us to celebrate Nubian Directions' YouthBuild AmeriCorps students, who learned the theory of Watershed Awareness and Green Stormwater Infrastructure, then had hands on experience building a superb green stormwater project – with a now bountiful garden and plant nursery, with the help of Hudson River Sloop Clearwater and Greenway Environmental Services. The students also completed 15 design consultations in the neighboring community, and will soon begin On-the-Job Training apprenticeships that can lead to real jobs. The students also renovated a neighboring building using advanced green building principles to create affordable, energy-efficient housing.

GREEN STORMWATER & BUILDING THEORY + HANDS ON EXPERIENCE + DESIGN CONSULTATIONS + APPRENTICESHIP → GREEN JOBS

Thursday, Sept. 17 from 4 - 7 p.m.

**At 206 Winnikee Ave. (near Cottage St.)
Poughkeepsie, NY 12601**
